HERALDRY IN AMERICA. By Eugene Zuber. 8vo., pp. 428. Bailey, Buntor and Biddle Co., Philadelphia.

"Heraldry in America" is a very handsome specimen of book-making, both in typography and illustration. The volume was designed to meet a want which has long been growing in America. The writer has succeeded in grouping all that is really necessary to enable the student correctly to interpret and apply the various laws relating to arms. In addition to a great mass of compiled matter, there is a very valuable collection of material gathered from the use of royal and other seals upon Colonial documents, and individual coats of arms upon old tombstones, hatchments, tablets, family plate, wills, deeds, etc. It also presents a view of the present practical application of heraldry in the United States, particularly to the use of official, corporate and personal seals, and insignia of orders and societies. The work contains over nine hundred and fifty illustrations.
